Listing Optimization

In accordance with the Amazon Algorithm, we established some guidelines for listing optimization, which we strictly adhere to, resulting in fantastic outcomes.In this regard, I can get the actual facts and fingers, such as how many KWs have space, how many KWs are captured by competitors, and on which KWs our competitors are getting sales through PPC, among other things. I also have very strong skills and hands-on experience with the most recent techniques using H-10 and MS Excel.
